GREAT GATHERING IN ROWAN COUNTY

Hon. R. B. Glenn Addresses a Great Concourse at a Barbecue.

"The chief purpose of the State Democratic campaign management this year is to get out the vote," said a gentleman at headquarters yesterday. "If this can be done there is no fear that the large majority of it will not be for the Democratic candidates. The speaking and the newspapers have aroused the people, and we expect that a fairly large vote will be polled."

"This is the first presidential election since the electorate was reduced, and some falling off anticipated. A vote cast compared with former elections, the decrease will be greatest in the Republican vote, however, owing to the large number of negroes who failed to register."

"The largest vote on record in Virginia in a presidential election was that cast in 1882 when Bryan received 151,500, and McKinley 135,308, a total of 286,807. In 1882 the vote was 150,100 to 127,200, or 10,300, when Allen and Hovey were candidates for Governor. Montague received but 115,682 to \$1,366 for Hoge, a total of 186,048. This election was had before the electorate was reduced. It is expected that the vote this year will equal that of 1882, despite the reduced electorate, but will not equal that for Cleveland in 1882."

"The result of the election in this State is awaited with peculiar interest, being the first time that the elector to whom the electorate has been curtailed by the operation of the new suffrage plan. It is not expected that there will be great falling off in the Democratic vote, many of those who failed to register in 1882 who did not often vote when they were on the rolls as voters. A presidential election always brings out the fullest Republican vote, and the figures will show to what extent this vote has been reduced."
